

Warranty

Times Microwave Systems (the seller) warrants to the original purchaser its coaxial cable, connector and assembly products used in commercial communications applications to be free from defects in material or workmanship which arise from proper and normal use and service for a period of five years (ten years for LMR[®]-DB) from the date of sale. In the event that the purchaser becomes aware of a defect within this period of time, the seller will, at its options, repair or provide to the purchaser new material in exchange for the defective material. In order to receive any remedy under this warranty, the purchaser must notify Times Microwave Systems of the defect and receive a return authorization.

The entire liability of the seller shall be limited to the repair or provision of new material in exchange for the defective product. Seller shall not be liable for any consequential or incidental damages, cost of removal and re-installation of the product or any other costs incurred by the purchaser as a result of the defect. In no case shall the liability of the seller exceed the sales price of the cable, connectors or assemblies found to be defective.

The above constitutes the entire warranty provided by Times Microwave Systems. There are no other warranties provided, expressed or implied.
